

XM offers a COMMERCIAL Free service for those of us who wish to Pay for the quailty programming not available in smaller markets. I could not listen to the music I like in my market unless I had XM Sat. Radio. It is our personal choice to Pay for this service.. Radio is free but this is a pay service...Should we Ban HBO and Showtime....because they are pay services... If you dont want to pay for the quality service..then dont... leave our decisions to us..the consumer..
